

Unibind is specialized in the design, manufacture and distribution of products for the presentation of printed documents.

**Mission
Statement**

MISSION STATEMENT

As an innovative company it's our mission to provide customer friendly premium products and services which contribute to the improvement of communication between people.

GOAL

To be a family company, recognized as the world leader in printed presentations.

To encourage professional development of our employees and business partners.

VALUES

Our main values are integrity, fairness, loyalty, accountability and respect for all human persons and the environment.

**Create
strong
bonds**

You don't get to be the industry leader by standing still.

At Unibind, our vision is to exceed customer needs and desires at every opportunity. With unwavering determination, we continually look for new and better ways to improve our products. That's why, despite international awards and recognition for our SteelBinding machines, we're not resting.

Whether it is improving existing products or bringing new products to the market, the Unibind name is synonymous with innovation and technology.

Our commitment to stay at the forefront of the industry makes - and keeps - Unibind the most progressive document presentation company in the world.

“A document helps to bind us together.
The better the presentation, the more consideration we show,
the stronger the bond we create.”

Unibind offers its customers 2 product categories:
Office and Photo.

The core product of Unibind is the self-developed and patented SteelBinding system, used to bind and present documents in a revolutionary and highly qualitative way.
